# About myself

Include things like

- where you live,
- the other people in your family,
- what your hobbies are,
- what you most like doing,
- how you spend your time outside school.

You could also include what kind of career you would like to have, what your goals are in life, and why you chose to take Physics.

## Target Setting

During my time in Physics I want to achieve the following targets.

1.

2.

3.

4.

5.

I ...\_\_\_\_\_

will always do my best in N5 Physics

I will work hard in class, and follow the classroom code.

I will look over the work we have done each evening, and I will complete each piece of homework and hand it in on time.

I will ask my teacher for help when I am having difficulties, and will not give up.

I will show my homework to my parents when completed.

*signed (you)*

*(and your parent/guardian to show that they have seen this)*
